Bug corrections

2003	Prefix missing for the field "State" in the "ProgressReport" stored procedure.
2037	When a campaign is deleted, the report "BC Qualification details" doesn't display qualification's description
2300	Admin: when creating a new field from the add data wizard, the data type length can be specified for all data types
2318	Search button is always enabled (even when a search is in progress)
2323	Admin: validation issue related to blacklist configuration
2328	Blacklist action on qualification is ignored (since 2.3.1)
2333	Admin: the role "listener" is not sufficent to fill the recording tool lists
2334	Admin: the admin "List" right does not include Account, FirstName and LastName in agents lists
